

Table of Contents

Volume 12 Number 11

November 2021

Wiener Number of Some Subgraphs in Archimedean Tilings

Y. J. Pan.....939

A Rational Approximation of the Fourier Transform by Integration with Exponential Decay Multiplier

S. M. Abrarov, R. Siddiqui, R. K. Jagpal, B. M. Quine.....947

Quantum Operator Model for Data Analysis and Forecast

G. Danko.....963

Intuitionistic Neuro-Fuzzy Optimization in the Management of Medical Diagnosis

Nivedita, S. Agrawal, D. Singh, M. K. Sharma.....993

Verifiable Secret Sharing Scheme Based on the Plane Parametric Curve

B. Li.....1021

Scanning for Clusters of Large Values in Time Series: Application of the Stein-Chen Method

T. Burr, B. Henderson.....1031

Global Stability and Hopf Bifurcation for a Virus Dynamics Model with General Incidence Rate and Delayed CTL Immune Response

A. S. Ndongo.....1038

New Formulas and Results for 3-Dimensional Vector Fields

S. D. Agashe.....1058

Dynamics of a Bertrand Duopoly Game of the Greek Oil Market and Application of the d-Backtest Method

G. Sarafopoulos, E. Drimpetas, K. Papadopoulos, D. Vezeris.....1097

Numerical Solution of Second-Orders Fuzzy Linear Differential Equation

J. Y. An, X. B. Guo.....1118

Application of Polynomial Mathematical Models for the Extraction of Bioactive Compounds from Plant Sources

M. Rusu, A. Ghendov-Mosanu, R. Sturza.....1126
