Advances in Pure Mathematics (APM)

<http://www.scirp.org/journal/apm>

Advances in Pure Mathematics (APM) is an international journal dedicated to the latest advancement of ordered algebraic structures. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of ordered algebraic structures.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- | | | |
|---------------------------|---|--------------------------------|
| Applied Harmonic Analysis | Fractional Analysis | Partial Differential Equations |
| Approximation Theory | Functional Differential Equations | Probability |
| Asymptotic Methods | Fuzzy Mathematics | Reaction-Diffusion Problems, |
| Bifurcation Theory | Geometry of Banach Spaces | Discrete Mathematics |
| Coding Theory | Integral Equations | Scattering Theory |
| Combinatorics | Mathematical Biology, Including Population Dynamics | Semigroups of Operators |
| Complex Analysis | Mathematical Physics | Signal Theory |
| Convex Analysis | Matrix Theory | Special Functions |
| Difference Equations | Moment Theory | Statistics |
| Differential Equations | Number Theory | Stochastic Process |
| Dynamical Systems | Numerical Analysis | Topology and Applications |
| Fixed-Point Theory | Operator Theory | Transport Theory |
| Fourier Analysis | Optimal Control | Ultrametric Analysis |
| Fractals | Optimization; Wavelets | Variational Methods |

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the APM.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
