

Special Issue on Algorithms and Computational Technology

Call for Papers

Algorithms and computational technology deal with the mathematical and numerical methods and computational technology used in the development of engineering solutions or computational analysis.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Algorithms and Computational Technology**. Potential topics include, but are not limited to:

- Computational and mathematical methods
- Mathematical model and algorithms
- Optimization algorithm
- Data mining
- Genetic algorithm
- Computational method and differential equations
- Computational model
- Applications in engineering and computer science

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Algorithms and Computational Technology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	May 22nd, 2020
Publication Date	July 2020

For publishing inquiries, please feel free to contact the Editorial Assistant at submission.entrance1@scirp.org
