

Special Issue on Fertilizer

Call for Papers

Fertilizer has been widely used in agricultural industry, it maybe any organic or inorganic matter from nature or synthetic processes. Fertilizer can supply one or more essential nutrients to the plants. For now, crop yields have been increased in a large part by the use of natural or synthetic fertilizer.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **fertilizer**. Potential topics include, but are not limited to:

- Fertilizers and growth of plants
- N, P, or K fertilizer and compound fertilizer
- Organic fertilizers
- Slow- and controlled-release fertilizers
- Overfertilization
- Fertilizer consumption
- Environmental effects

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Fertilizer**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	November 11th, 2013
Publication Date	December 2013
