

## Special Issue on Grasses

### Call for Papers

Uses for grasses include food (as grain, sprouted grain, shoots, rhizomes and sugar), drink (sugarcane juice, plant milk, rum, beer, whisky, vodka), pasture for livestock, thatch, paper, fuel, clothing, insulation, timber for fencing, furniture, scaffolding and construction, sports turf, basket weaving and many others.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **grasses**. Potential topics include, but are not limited to:

- Pasture and forage
- Turfgrass
- Grass planting and breeding
- Water management
- Diseases and insects
- Carbon cycle
- Grasses degradation
- Ecology and environmental conservation

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Grasses**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	September 26th, 2016
Publication Date	October 2016
