

## Special Issue on Agricultural Ecology

### Call for Papers

**Agricultural Ecology** encompasses many diverse interests and emerging problems, including the need to address growing pest and weed control problems, protect farmworker health, reduce pressure on supporting natural resources, ameliorate environmental impacts of agricultural operations and promote sustainable agricultural production. As a truly integrative science, agricultural ecology is unique in its scope of inquiry.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **agricultural ecology**. Potential topics include, but are not limited to:

- Physiological, population, and community ecology of organisms
- Agricultural chemistry
- Agro-ecosystem and global climate change
- Impact on land, water and atmospheric resources
- Agricultural production and management
- Agricultural ecology and socio-economic relationship
- Applications

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Agricultural Ecology**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	May 31st, 2017
Publication Date	July 2017
