

Special Issue on Agricultural Technology and Application

Call for Papers

Modern agriculture is an evolving approach to agricultural innovations and practices that makes use of plants, animals, and microbes in the areas of food production and agricultural engineering for the benefits of human. It also aims to protect the environment and conserve natural resources. Modern agricultural technology involves applications of biotechnology in plants, animal husbandry, forestry, fishery, aquaculture and agricultural engineering.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **agricultural technology and application**. Potential topics include, but are not limited to:

- Agronomy and horticulture
- Agri-food and food production
- Agricultural technology and crop improvement
- Fisheries and aquaculture
- Forestry and animal husbandry
- Agricultural engineering and economics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Agricultural Technology and Application**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	February 23rd, 2019
Publication Date	March 2019
