

Special Issue on Animal Husbandry

Call for Papers

Animal husbandry refers to livestock raising and selective breeding. It is the management and care of animals in which the genetic qualities and behavior of animals are further developed for profit. A large number of farmers depend upon animal husbandry for their livelihood. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **animal husbandry**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **animal husbandry**. In this special issue, potential topics include, but are not limited to:

- Animal nutrition
- Veterinary science physiology
- Animal care, animal physiotherapy
- Animal feeding and breeding
- Dairy farm, Health and dairy Products
- Veterinary medicine and behaviour, diagnosis, treatment
- Poultry farming

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Animal Husbandry**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	September 10th, 2022
Publication Date	November 2022
