Communications and Network

ISSN 1949-2421 (print) ISSN 1947-3826 (online) www.scirp.org/journal/cn

CN, an international journal, dedicates to the latest advancement of communications and network technologies. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these fast moving areas.

Editor in Chief

Prof. Hamed Al-Raweshidy

Brunel University, UK

All manuscripts submitted to CN must be previously unpublished and may not be considered for publication elsewhere at any time during CN's review period. Additionally, accepted ones will immediately appear online followed by printed in hard copy. The topics to be covered by Communications and Network include, but are not limited to:

Algorithms and Programs Mobility Networks and Protocols Applications and Value-Added Services Modulation/Signal Design **Cognitive Radio** Multi Antenna/User Systems **Communication Protocols** Multimedia Services in Wireless Networks Complexity • Network Protocol, QoS and Congestion Control Computer and Network Security • Operations and Management Optical Communications **Cooperative Communications** • Overlay and Peer-to-Peer Networks Data and Information Security • Error Correcting Codes Self-Stabilization, Autonomic Computing Fading/Equalization Shared and Transactional Memory, Synchronization Green Technology Protocols, Concurrent Programming Hardware and Software System Architecture • Simulation/Analytical Evaluation of Communication Systems High Performance Computing, Grid Computing, ◆ Source Coding/Data Compression **Cloud Computing** Switching and Routing Internet/Intranet Protocols Synchronization Internet/Intranet Services Traffic Diagnosis • Location Based Services Transmission and Access Systems Mobile and Portable Communications Systems • Wired and Wireless Integration • Wireless Network Design and Performance Evaluation Mobile Computing Systems

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the CN.
