

Special Issue on Case Reports in Pediatrics

Call for Papers

A case report is a detailed report of the symptoms, signs, diagnosis, treatment, and follow-up of an individual patient, providing feedback on clinical practice guidelines and offer a framework for early signals of effectiveness, adverse events, and cost. Case reports in pediatrics deals with case reports related to medical care of infants, children, and adolescents

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Case Reports in Pediatrics**. Potential topics include, but are not limited to:

- Neonatology
- Pediatric cardiology
- Pediatric sepsis
- Pediatric dermatology
- Pediatric endocrinology
- Pediatric gastroenterology
- Pediatric hematology and oncology
- Pediatric infectious diseases
- Pediatric intensive care
- Pediatric nephrology
- Pediatric neurology
- Pediatric respiratory
- Pediatric rheumatology
- Pediatric surgery
- Developmental pediatrics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue –Case Reports in Pediatrics**” should be chosen during your submission.
