

Special Issue on Aerospace Engineering

Call for Papers

Aerospace Engineering is the primary field of engineering concerned with the development of aircraft and spacecraft. It has two major and overlapping branches: aeronautical engineering and astronautical engineering.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **aerospace engineering**. Potential topics include, but are not limited to:

- Applied physics
- Gas dynamics
- Dynamics and controls
- Fluid mechanics
- Structures and materials
- Propulsion and energy sciences
- Space systems

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Aerospace Engineering**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	February 28th, 2018
Publication Date	April 2018
