

Special Issue on Electronics and Communications Engineering

Call for Papers

Electronics and Communications Engineering (ECE) involves researching, designing, developing and testing of electronic equipment used in various systems. Electronics and Communications engineers also conceptualize and oversee the manufacturing of communications and broadcast systems. The goal of this special issue is to provide a platform for scientists and academics all over the world to promote, share and discuss various new issues and developments in **electronics and communications engineering**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **electronics and communications engineering**. In this special issue, potential topics include, but are not limited to:

- Analog transmission
- Electronic devices and circuits
- Basic electronics and microprocessors
- Solid state devices
- Digital and analog communication
- Analog integrated circuits
- Satellite communication
- Communication technology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Electronics and Communications Engineering***” should be selected during your submission.

Special Issue timetable:

Submission Deadline	October 18th, 2024
Publication Date	December 2024
