Volume 9 Number 1

January 2021

A Discussion on the Characteristics of Tectonic Transformation and Its Mechanism of 2nd Episode of Zhu-Qiong Movement in Zhu 1 Depression, South China

Y. Hu.....1

Comprehensive Evaluation of Flood and Flood in the Yellow River Basin Based on Gray Correlation Analysis

H. Mo.....13

Development of an Ontology-Based Knowledge Network by Interconnecting Soil/Water Concepts/Properties, Derived from Standards Methods and Published Scientific References Outlining Infiltration/Percolation Process of Contaminated Water

S. D. V. Giakoumatos, A. K. T. Gkionakis.....25

Characteristic Relationships between Phosphorous Accrual, Ecosystem Aspects and Water Level Fluctuations in Tropical Lakes: Naivasha Ramsar Site, Kenya

B. N. Obegi, G. M. Ogendi, R. Omondi, B. J. Siriba, G. N. Morara, N. M. Rindoria, P. Orina.....53

Sectoral Features of the Tenir-Too Mountains

T. Matikeev, Z. Sherbaeva, B. Satybaldiev, A. Atashbaev, U. Isakova, Z. Abdullaeva.....68

Research on the “No-Typhoon July” in 2020 and Typhoon Frequency Variations in July in Recent 70 Years

X. X. Qi.....75

New Dinosaur Tracks from the Lower Barremian of Portugal (Areia do Mastro Formation, Cape Espichel)

S. D. Figueiredo, C. N. de Carvalho, P. P. Cunha, I. de Sousa Carvalho.....84

Physicochemical and Bacteriological Quality of Groundwater, East of Nile Delta of Egypt

M. Gomaah, A. Ramadan, M. M. El-Shazly, Y. A. M. Abdulhady, H. A. Shawky.....97

Evaluation of Stope Stability in Underground Mine; Hermyingyi (Sn-W Deposit) Mine in Myanmar

C. T. Oo, T. Sasaoka, H. Shimada, A. Hamanaka, T. Naing, D. Moses.....107

Effects of Sublevel Open Stope Underground Mining on Surface and Open Pit Slopes

T. K. M. Dintwe, T. Sasaoka, H. Shimada, A. Hamanaka, D. Moses, S. F. Liu, F. F. Meng.....121

Background Concentration of Copper and Cadmium in Water from a High Industrialized and Urban Coastal System (Baixada Santista, Brazil)—Contribution to a Monitoring Program

E. S. Braga, R. D. Ricardo.....132
