## Editor-in-Chief

**Prof. Zhijian Peng** China University of Geosciences, China

## Editorial Board

**Dr. Kerim Aydiner** Karadeniz Technical University, Turkey  
**Prof. Khairun Azizi** University Teknologi PETRONAS, Malaysia  
**Dr. Rituparna Bose** The City University of New York, USA  
**Dr. Karra Ram Chandar** National Institute of Technology Karnataka, India  
**Prof. Kaan Erarslan** Dumlupinar University, Turkey  
**Prof. B. M. Girish** East Point College of Engineering and Technology, India  
**Prof. M. Jayachandran** Central Electrochemical Research Institute, India  
**Prof. Yilmaz Ozelik** Hacettepe University, Turkey  
**Dr. Partha Patra** Columbia University, USA  
**Prof. Gehad Mohamed Saleh** Nuclear Materials Authority (NMA), Egypt  
**Prof. Cem Şensöğüt** Dumlupinar University, Turkey  
**Prof. T. N. Singh** IIT Bombay, India  
**Prof. Vladimir E. Vigdergauz** Russian Academy of Sciences, Russia  
**Prof. Huaming Yang** Central South University, China  
**Prof. Kun Zhao** China University of Petroleum, China  
**Prof. Liancun Zheng** University of Science and Technology (Beijing), China

## TABLE OF CONTENTS

Volume 3 Number 4

October 2013

<b>Development of Film Forming Agent HN-1 and Its Application in Drilling Fluid</b>	
Y. L. Hu.....	121
<b>Geothermal Modeling of Kızılcahamam-Çamlıdere Area Using 3D Imaging Technique</b>	
A. Keskinsezer, G. Beyhan.....	126
<b>Numerical Crack Analysis of Blunt Rock Indenters by an Indirect Boundary Element Method</b>	
N. S. Tayarani, M. F. Marji.....	132
<b>Determination of Thermal Conductivity and Porosity of Building Stone from Ultrasonic Velocity Measurements</b>	
A. Boulanouar, A. Rahmouni, M. Boukalouch, A. Samaouali, Y. Géraud, M. Harnafi, J. Sebbani.....	138
<b>New Approach of Geomechanical Properties by Scale Effect and Fractal Analysis in the Kedougou-Kenieba Inlier (Senegal-West Africa)</b>	
D. Sarr, M. Fall, P. M. Ngom, M. Gueye.....	145
<b>Facies and Fracture Network Modeling by a Novel Image Processing Based Method</b>	
P. Mohammadmoradi.....	156
<b>Resilient Modulus of Compacted Lateritic Soils from Senegal at OPM Conditions</b>	
F. Samb, M. Fall, Y. Berthaud, M. Bâ.....	165
<b>Estimation of Resilient Modulus of Unbound Granular Materials from Senegal (West Africa)</b>	
A. Dione, M. Fall, Y. Berthaud, M. Ba.....	172

---

The figure on the front cover is from the article published in Geomaterials, 2013, Vol. 3, No. 4, pp. 126-131 by Ayhan Keskinsezer and Günay Beyhan.

## **Geomaterials (GM)**

### **Journal Information**

#### **SUBSCRIPTIONS**

The *Geomaterials* (Online at Scientific Research Publishing, [www.SciRP.org](http://www.SciRP.org)) is published quarterly by Scientific Research Publishing, Inc., USA.

#### **Subscription rates:**

Print: \$59 per issue.

To subscribe, please contact Journals Subscriptions Department, E-mail: [sub@scirp.org](mailto:sub@scirp.org)

#### **SERVICES**

##### **Advertisements**

Advertisement Sales Department, E-mail: [service@scirp.org](mailto:service@scirp.org)

##### **Reprints (minimum quantity 100 copies)**

Reprints Co-ordinator, Scientific Research Publishing, Inc., USA.

E-mail: [sub@scirp.org](mailto:sub@scirp.org)

#### **COPYRIGHT**

# Geomaterials (GM)

ISSN 2161-7538 (Print) ISSN 2161-7546 (Online)

<http://www.scirp.org/journal/gm>

**Geomaterials (GM)** is open to original research articles accepting rock and soil as material. In addition to original research applications review papers and short technical notes are accepted. Geomaterials forms a platform to publish articles from experimental researches, theoretical analysis, statistical and mathematical modeling work. In addition, papers condensed on the analysis, modeling and optimization efforts in industry scale projects or applications are accepted.

## Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Characterization of geomaterials: Experimental methods in determining physical and mechanical parameters of geomaterials.
- Dampening and permeability properties: Seismic wave dampening characteristics, fluid, gas and radiation flow or emitting behavior of geomaterials.
- Modeling the behavior of geomaterials: results of the efforts behavior or response of geomaterials using statistical, mathematical and numerical methods.
- Monitoring behavior: Methods and equipment to monitor behavior of geomaterials.
- Results of the experimental and industrial applications: Applications focused on behavior of geomaterials. Blasting performance: Rock response to blasting, fragmentation quality, seismic loading, and effects of rock structural elements in wave transmission. Size reduction: Characteristics and response to grinding effects, mechanism of processes. Soil behavior: Characteristics and response of soil related with the engineering processes. Wear and cutting behavior of geomaterials: The mechanism in drilling, cutting and sawing processes need extended work to explain the response of geomaterials to mechanical effect. Drilling, mechanical excavation, sawing and abrasive water jet machining are in the primary concern in that sense.

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the GM.

## Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

## Website and E-Mail

E-mail: [gm@scirp.org](mailto:gm@scirp.org)

## ***What is SCIRP?***

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

## ***What is Open Access?***

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
