www.scirp.org/journal/iim

IIM is a peer reviewed international journal dedicated to the latest advancement of intelligent information management. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these fast moving areas. The journal publishes the highest quality, original papers included but are not limited to the fields:

- ★ Computational intelligence
- ★ Data mining
- ★ Database management
- ★ Distributed artificial intelligence
- ★ General systems theory and methodology
- ★ Information security
- ★ Intelligent information management systems
- ★ Knowledge discovery and management
- ★ Nonlinear system and control theory
- ★ Optimal algorithms
- ★ Other related areas and applications

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the IIM.
