

Table of Contents

Volume 11 Number 1

March 2021

The Quantization of Black Holes, Lower Mass Limit, Temperature, and Lifetime of Black Holes in a Simple Way

- | | |
|-------------------|---|
| S. A. Enejad..... | 1 |
|-------------------|---|

Scaling Behavior for the Susceptibility of the Vacuum

- | | |
|---------------|----|
| C. Pilot..... | 11 |
|---------------|----|

Energy Conservation in the Thin Layer Approximation: IV.

The Light Curve for Supernovae

- | | |
|-------------------|----|
| L. Zaninetti..... | 37 |
|-------------------|----|

Adding Dark Matter to the Standard Model

- | | |
|-------------------|----|
| B. Hoeneisen..... | 59 |
|-------------------|----|

A Brief Review of Historical Supernovae

- | | |
|--------------------------------|----|
| S. Al Dallal, W. J. Azzam..... | 73 |
|--------------------------------|----|

MOUND: An Alternative to Milgrom's MOND

- | | |
|------------------|----|
| P. G. Tonin..... | 87 |
|------------------|----|

A Lack of Evidence for Global Ram-Pressure Induced Star Formation

in the Merging Cluster Abell 3266

- | | |
|--------------------------------|----|
| M. J. Henriksen, S. Dusek..... | 95 |
|--------------------------------|----|

New Probability Distributions in Astrophysics: V. The Truncated Weibull Distribution

- | | |
|-------------------|-----|
| L. Zaninetti..... | 133 |
|-------------------|-----|
