Volume 5 Number 3

March 2014

Study of the Effects of Atmospheric Pressure in the Time Series of Muon Detector Using the Method of Spectral Analysis N. R. Rigozo.....	239
Quantitative Geomorphometrics for Terrain Characterization D. Coblenz, F. Pabian, L. Prasad.....	247
Feasible Multiple Satellite Mission Scenarios Flying in a Constellation for Refinement of the Gravity Field Recovery B. Elsaka.....	267
Study on Simulation of Foreshock Activity Properties before Strong Earthquake Using Heterogeneous Cellular Automata Models M. Li, F. Yang, T. Zhang.....	274
Deciphering of Space Images of the Inder Salt-Dome Upland in ENVI 4.7 Program K. M. Akhmedenov, A. G. Koshym, R. Z. Zhumabekova.....	286
Contamination Potential of an Urban Mine Tailings Deposit in Central Mexico —A Preliminary Estimation L. Lizárraga-Mendiola, D. E. Ángeles-Chávez, A. Blanco-Piñón, M. Ramírez-Cardona, F. J. Olguín-Coca, M. del R. González-Sandoval.....	296
An Interpretation of Structures from the Aeromagnetic Field over a Region in the Nigerian Younger Granite Province J. Raimi, B. B. M. Dewu, P. Sule.....	313
Geophysical Evaluation for Evidence of Recharging the Pleistocene Aquifer at El-Nubariya Area, West Nile Delta, Egypt A. Khalil, K. Mansour, T. Rabeh, A. Basheer, M. A. Zaher, K. Ali.....	324
Coastal Erosion Studies—A Review D. H. Prasad, N. D. Kumar.....	341
Evidence of Iron Mineralization Channels in the Messondo Area (Centre-Cameroon) Using Geoelectrical (DC & IP) Methods: A Case Study N. P. Claude, N.-M. Théophile, A. S. Patrick, K. T. Crepin.....	346
