

Table of Contents

Volume 5 Number 2**February 2017**

Augmented Lagrangian Methods for Numerical Solutions to Higher Order Differential Equations	
X. F. Li.....	239
Euler-Maclaurin Expansions of Errors for Multidimensional Weakly Singular Integrals and Their Splitting Extrapolation Algorithm	
Y. B. Pan, J. Huang, H. Y. Liu.....	252
Numerical Solution of Two Dimensional Fredholm Integral Equations of the Second Kind by the Barycentric Lagrange Function	
H. Y. Liu, J. Huang, Y. B. Pan.....	259
Application of Hypergeometric Series in the Inverse Moments of Special Discrete Distribution	
H. Y. Bao, Wuyungaowa.....	267
An Iterative Algorithm for Generalized Mixed Equilibrium Problems and Fixed Points of Nonexpansive Semigroups	
J. K. Kim, Salahuddin, W. H. Lim.....	276
Cordial Volterra Integral Equations with Vanishing Delays	
H. J. Wang, Z. W. Yang, M. Khumalo.....	294
Solvability of Nonlinear Sequential Fractional Dynamical Systems with Damping	
C. E. Xiao, X. W. Li.....	303
SUISEI—A Versatile Global Model of Comets with Applications to Small Solar System Bodies	
D. C. Boice.....	311
A Mathematical Interpretation of Hawking’s Black Hole Theory by Ricci Flow	
Q. F. Xing, X. Gao.....	321
The Technique of the Immersed Boundary Method: Application to Solving Shape Optimization Problem	
L. Rao, H. Q. Chen.....	329
Equivalence between Modulus of Smoothness and K-Functional on Rotation Group $SO(3)$	
Z. Y. Yang, Z. W. Yang.....	341

Mathematical Multibody Model of a Soft Mounted Induction Motor Regarding Forced Vibrations Due to Dynamic Rotor Eccentricities Considering Electromagnetic Field Damping	
U. Werner.....	346
Universal Metric for Assessing the Magnitude of the Uncertainty in the Measurement of Fundamental Physical Constants	
B. Menin.....	365
Solutions of the Exponential Equation $y^{\frac{x}{y}} = x$ or $\frac{\ln x}{x} = \frac{\ln y}{y}$ and Fine Structure Constant	
S. Gnanarajan.....	386
Phase Space Path Integral Representation for Wigner Function	
A. S. Larkin, V. S. Filinov.....	392
Finite-Time Stabilization of Dynamical System with Adaptive Feedback Control	
Z. C. Ma, Y. Z. Sun, H. J. Shi.....	412
The Relativistic Geometry of the Complex Matter Space	
R. Ahangar.....	422
Hot Vapor Bubble Prints on Carbon Steel	
G. Bazanini, J. D. Bressan.....	439
Revisiting the Evaluation of a Multidimensional Gaussian Integral	
R. P. Mondaini, S. C. de Albuquerque Neto.....	449
Derivative Process Using Fractal Indices k Equals One-Half, One-Third, and One-Fourth	
S. A. Loria.....	453
Travelling Waves in Space-Fractional Nonlinear Diffusion with Linear Convection	
F. S. Costa, M. R. A. Pereira.....	462
About Factorization of Quantum States with Few Qubits	
G. V. López, G. Montes, M. Avila, J. Rueda-Paz.....	469
Postshock Oscillations on Non-Uniform Mesh	
F. X. Hu.....	481
Schrödinger's Cat Paradox Resolution Using GRW Collapse Model: Von Neumann Measurement Postulate Revisited	
J. Foukzon, A. Potapov, E. Menkova, S. Podosenov.....	494
Dispersion Effects in the Falkner-Skan Problem and in the Kinetic Theory	
O. Galaev, E. Prozorova.....	522
Experimental Confirmation of the Doubts about Authenticity of Event GW150914	
A. V. Lukanenkov.....	538

Residential Community Open-Up Strategy Based on Prim's Algorithm and Neural Network Algorithm

X. M. Lv, A. Li, S. K. Zhang, J. B. Li.....551
