

# Table of Contents

**Volume 6    Number 4**

**April 2018**

<b>QED Cosmic Dark Energy Density Using Schwinger-Fredkin and E-Infinity Theory</b>	
M. S. El Naschie.....	621
<b>Theoretical Study of Fully Developed Turbulent Flow in a Channel, Using Prandtl's Mixing Length Model</b>	
L. A. Antonialli, A. Silveira-Neto.....	677
<b>Polarizations as States and Their Evolution in Geometric Algebra Terms with Variable Complex Plane</b>	
A. Soiguine.....	704
<b>Where Do We Stand on High Heels in 2018? An Audit</b>	
S. E. Reynolds, S. V. Richardson, B. Horne, I. Reid, R. Ross, R. Campbell.....	715
<b>Solutions for Series of Exponential Equations in Terms of Lambert-W Function and Fundamental Constants</b>	
S. Gnanarajan.....	725
<b>Finite Difference Implicit Schemes to Coupled Two-Dimension Reaction Diffusion System</b>	
S. Hasnain, M. Saqib, N. Al-Harbi.....	737
<b>Optimal Control of a Vaccinating Game toward Increasing Overall Coverage</b>	
M. G. Cojocaru, A. S. Jaber.....	754
<b>Existence of Ordered Solutions to Quasilinear Schrödinger Equations with General Nonlinear Term</b>	
J. Wu, G. Jia.....	770
<b>A Look at Sequential Normal Scores and How They Apply to Financial Data Analysis</b>	
W. J. Conover, V. G. Tercero-Gómez, A. E. Cordero-Franco.....	787
<b>The Study on the Cycloids of Moving Loops</b>	
G. Tarabrin.....	817
<b>A Simple Remark Leading to a Basic Precision Estimate for Non-Relativistic (Nr) Real Values of Quantum Mechanics Operators</b>	
A. de Kertanguy.....	831
<b>Zero Divided by Zero Equals One</b>	
I. Barukčić.....	836

<b>Exponential Spline Solution for Singularly Perturbed Boundary Value Problems with an Uncertain—But—Bounded Parameter</b>	
W. K. Zahra, M. A. El-Beltagy, A. M. El Mhlawy, R. R. Elkhadrawy.....	854
<b>Thin Film Evolution Equation for a Strained Anisotropic Solid Film on a Deformable Isotropic Substrate</b>	
W. Tekalign, A. Atena.....	864
<b>A Study on the Convergence of Gradient Method with Momentum for Sigma-Pi-Sigma Neural Networks</b>	
X. Zhang, N. M. Zhang.....	880
<b>N-Fold Darboux Transformation for the Nonlocal Nonlinear Schrödinger (NNLS) Equation with the Self-Induced PT-Symmetric Potential</b>	
C. N. Duan, F. J. Yu.....	888
<b>Numerical Solution of the Schrödinger Equation for a Short-Range Potential with Any <math>\ell</math> Angular Momentum</b>	
A. J. Sous, M. I. El-Kawni.....	901
<b>Controllability of a Stochastic Neutral Functional Differential Equation Driven by a fBm</b>	
J. Q. Han, L. T. Yan.....	910
<b>Critical Comments on the Paper “On the Logical Inconsistency of the Special Theory of Relativity”</b>	
V. A. Leus.....	925
<b>On Maxwell Equations for Gravitational Field</b>	
G. V. López.....	932
