Volume 7 Number 2

February 2019

First Principle Study of the Structural and Piezoelectric Properties of Perovskite $ZrTi(PbO_3)_2$ Materials for Naval SONAR

O. J. Adeyemi, G. M. Mawashi, A. Shuaibu, B. J. Akinade, U. R. Ushiekpan.....271

Economy, Environment and Government: Study on the Path of Supply-Side Reform Forced by the Fog-Haze

J. R. Li, Y. Zhang, S. Zhang.....281

Effects of Rotation on Turbulence Production

A. S. Hsieh, S. Biringen.....298

Random Response of a Strongly Nonlinear Oscillator with Internal and External Excitations

C. Floris.....331

A Unified Field Theory Based on a Rotating de Broglie Wave Packet

L. M. Houston.....343

Modeling of Economic Processes, Instability and Chaos

E. Perevoznikov, E. Lomteva.....356

How to Check If a Number Is Prime Using a Finite Definite Integral

J. Sánchez.....364

FEM Model of the Temperature Distribution in the Brain during Enhanced Infrared Neural Stimulation Using Nanoparticles

R. Zhou, H. L. Chen, Z. X. Mou.....381

Model-Following Designs Using Direct State Derivative Measurement Feedback in Novel Reciprocal State Space Form

Y.-W. Tseng, R.-C. Wu.....394

N -Expansive Property for Flows

L. H. Tien, L. D. Nhien.....410

On the Topological Entropy of Nonautonomous Differential Equations

L. H. Tien, L. D. Nhien.....418
