

Table of Contents

Volume 7 Number 7

July 2019

Existence of Multiple Positive Solutions for Third-Order Three-Point Boundary Value Problem

Q. F. Chen, J. L. Li.....1463

**Simultaneous Quenching for Semilinear Parabolic System
with Localized Sources in a Square Domain**

W. Y. Chan.....1473

Invariant Solutions of Two Dimensional Heat Equation

N. O. Abdigapparovich.....1488

Infinite Subharmonic Solutions of the Forced Relativistic Oscillators

Z. H. Wang, T. T. Ma.....1498

**Quantum Phase Transition for One-Dimensional Spin-1 XXZ Model
with Uniaxial Single-Ion-Type Anisotropy**

C. H. Xiang, H. L. Wang.....1513

Why Quantitative Variables Should Not Be Recoded as Categorical

A. Fernandes, C. Malaquias, D. Figueiredo, E. da Rocha, R. Lins.....1519

**The Global Stability Analysis of a Mathematical Cellular Model
of Hepatitis C Virus Infection with Non-Cytolytic Process**

A. Nangue, C. Fokoue, R. Poumeni.....1531

Simple Models for Diffusion in Thin Plates or Membranes

J. C. de Araújo, R. G. Márquez.....1547

The Dominating Set of Bergman Spaces

X. Song.....1560

**Patchwise Mapping Method for Solving Elliptic Boundary
Value Problems Containing Multiple Singularities**

H. Kim.....1572
