## Journal of Biomedical Science and Engineering (JBiSE)

<http://www.scirp.org/journal/jbise>

JBiSE, an international journal, publishes research and review articles in all important aspects of biology, medicine, engineering, and their intersection. Both experimental and theoretical papers are acceptable provided they report important findings, novel insights, or useful techniques in these areas. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed in hard copy.

### Subject Coverage

- Bioelectrical and neural engineering
- Bioinformatics and computational biology
- Biomaterials
- Biomechanics and biotransport
- Biomedical devices, sensors, artificial organs and nano technologies
- Biomedical engineering
- Biomedical imaging, image processing and visualization
- Biomedical modeling
- Clinical engineering, wearable and real-time health monitoring systems
- Genetic engineering
- Genomics
- Medical biochemistry
- Medical cell biology
- Nano-bio-analysis
- NMR/CT/ECG technologies and electromagnetic field simulation
- Physiological signal processing
- Proteomics
- Software, tools and application in medical engineering
- Structure-based drug design

### Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
