
Special Issue on Dermatology and Venerology

Call for Papers

Dermatology is mainly about studying how the skin (including hair and nails) is affected by internal and external factors such as its shape, structure and change of its function and corresponding clinical manifestations. Diagnosing and preventing skin diseases is the focus of dermatology's objectives and research significance. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Dermatology and Venerology**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Dermatology and Venerology**. Potential topics include, but are not limited to:

- Psoriasis
- Viral Skin Diseases
- Dermatomycosis
- Sexually transmitted diseases
- Diagnosis and management of skin diseases
- Fungal diseases
- Cosmetic dermatology
- Bullous skin disease

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Dermatology and Venerology**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 7th, 2021
Publication Date	June 2021
