Editor in Chief

Dr. Bouzid Menaâ Fluorotronics Inc., USA

Editorial Board

Prof. Salah Aida University of Constantine, Algeria

Alicia Esther Ares University of Misiones, Argentina

Dr. Arul C. Arjunan Sinmat Inc., USA

Dr. R. Gopalakrishnan Anna University, India

Dr. Wen Lei Australian National University, Australia

Prof. Shu-Shen Lu Sun Yat-sen University, China

Prof. Krishna C. Mandal University of South Carolina, USA

Dr. Klaus Merz University of Bochum, Germany

Dr. Radoljub I. Ristic The University of Sheffield, UK

Prof. Camillo Rosano National Institute for Cancer Research, Italy

Prof. Garth Simpson Purdue University, USA

Prof. Vitalyi Igorevich Talanin Zaporozhye Institute of Economics and Information Technologies, Ukraine

Prof. Rina Tannenbaum University of Alabama at Birmingham, USA

Ramaiyer Venkatraman Jackson State University, USA

Dr. Sunil Verma Raja Ramanna Centre for Advanced Technology, India

TABLE OF CONTENTS

Volume 3 Number 2

April 2013

Study of Crystallization Process in $\text{Se}_{80}\text{In}_{10}\text{Pb}_{10}$ by Iso-Conversional Methods	
I. S. Ram, K. Singh.....	49
Growth and Characterization of Bisthiourea Nickel Bromide—New Semiorganic Nonlinear Optical Crystal	
R. S. Sundararajan, M. Senthilkumar, C. Ramachandraraja.....	56
Optical Methods in Orientation of High-Purity Germanium Crystal	
G. J. Wang, Y. C. Sun, Y. T. Guan, D. M. Mei, G. Yang, A. A. Chiller, B. Gray.....	60
Synthesis, Spectral Characterization and Crystal Structure of 2-((3-Aminophenyl)(phenyl)methylene)hydrazinecarboxamide	
Y.-C. Chan, A. S. M. Ali ¹ , M. Khairuddean, C.-K. Quah.....	64
Synthesis, Crystal structure and Antimicrobial Activity of (E)-ethyl-4-(2-oxoacenaphthylen-1(2H)-ylideneamino) benzoate	
Y.-C. Chan, A. S. M. Ali, M. Khairuddean, B. Salleh.....	69

The figure on the front cover is from the article published in Journal of Crystallization Process and Technology, 2013, Vol. 3, No. 2, pp. 60-63 by Guojian Wang, Yongchen Sun, Yutong Guan, Dongming Mei, Gang Yang, *et al.*

Journal of Crystallization Process and Technology (JCPT)

ISSN 2161-7678 (Print) ISSN 2161-7686 (Online)
<http://www.scirp.org/journal/jcpt>

Journal of Crystallization Process and Technology (JCPT) is an international, specialized, English-language journal devoted to publication of original contributions concerning with the crystallization process, studies and properties of the crystalline materials.

Subject Coverage

It is an open-access, peer-reviewed journal describing scientific and technological advances that cover the basic sciences, engineering aspects and applied technology of crystals and crystallization processes:

- Crystals Growth, Design and Properties for Applications in Medical Sciences with Organic and Biological Substances Crystallization; Biom mineralization; Opto-Electronics with Semiconductors, Superconductors, Magnetics, Inorganic and Inorganic-Organic Hybrid Materials Crystallization.
- Characterization by Physical and Chemical Methods; Apparatus, Instrumentation and Techniques for Crystal Growth, and Purification Methods.
- Crystallization as Bulk or Thin Films; Crystallization in Polymers, Liquid Crystals, Crystallization in Sol-Gel Glasses and Viscous Media.
- Crystallization Processes Including among Others Chemical Vapor Deposition, Hydrothermal, Organic, Solvent and Solvent-Free Processes.

The journal publishes the highest quality original full articles, communications, notes, reviews, special issues and books, covering both the experimental and theoretical aspects including physical, chemical, and biological phenomena and processes related to the design, growth, and application of crystalline materials. Contributions can concern also with the fundamental concepts of crystal growth and the understanding of the relationship between crystal growth conditions and resulting properties of the crystal:

- Intermolecular Interactions in the Solid State.
- Modeling of Crystal Growth Processes.
- Nucleation Theory.
- Transport Phenomena in Crystal Growth.

Papers are acceptable provided they report important findings, novel insights or useful techniques within the scope of the journal. All manuscript must be prepared in English, and are subjected to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by prints in hard copy.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
