# CALL FOR PAPERS

## Journal of Cancer Therapy

ISSN 2151-1934(Print) ISSN 2151-1942 (Online)

<http://www.scirp.org/journal/jct>

**Journal of Cancer Therapy (JCT)** is an international journal dedicated to the latest advancement of cancer therapy. The goal of this journal is to provide a platform for doctors and academicians all over the world to promote, share, and discuss various new issues and developments in cancer related problems.

### Editor-in-Chief

### Subject Coverage

This journal invites original research and review papers that address the following issues in cancer therapy. Topics of interest include, but are not limited to:

|   |   |
|---|---|
| • Biomarkers discovery                                | • Clinical Trials in Oncology                     |
| • Cancer etiology                                     | • Pharmaceutical and medical therapy development  |
| • Cancer genes and genomics                           | • Principles of cancer biology                    |
| • Cancer treatment integrated medicine                | • Scientific advances in prevention and diagnosis |
| • Human Immunology                                    | • Target identification and validation            |
| • Latest technology in cancer detection and treatment | • Experimental Therapeutics                       |

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of **JCT**.

### Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
