Journal of Data Analysis and Information Processing

ISSN 2327-7211 (Print) ISSN 2327-7203 (Online) http://www.scirp.org/journal/jdaip

Journal of Data Analysis and Information Processing (JDAIP) is an international journal dedicated to the latest advancement of data analysis and information processing methods. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of data analysis and information processing.

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Application of Technology in Policy and Decision Making
- Application of Technology in Teaching and Learning Process
- Artificial Intelligence
- Artificial Neural Networks
- Big Data Analytic
- Business Intelligence
- Computational Intelligence
- Data Mining
- Data Modeling
- Deep Learning
- Digital Signal Processing
- Dimension Reducing
- Empirical Mode Decomposition
- Fourier Analysis
- Graph Mining
- Image Processing, Video Processing

- Information Extraction
- Information Hiding
- Information Retrieval
- Information Theory
- Knowledge Discovery
- Machine Learning
- Multivariate Data Analysis, Matrix Analysis
- Pattern Recognition
- Semantic Technology
- Social Network Mining
- Spatial and Temporal Data Analysis
- Statistics
- Statistics and Applied Probability
- Stochastic Process
- Stream Mining
- Time Series Analysis
- Wavelet Analysis

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the JDAIP.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
