

TABLE OF CONTENTS

Volume 2 Number 11

November 2010

Inspections of Mobile Phone Microwaves Effects on Proteins Secondary Structure by Means of Fourier Transform Infrared Spectroscopy

E. Calabrò, S. Magazù.....607

Investigation of Power Factor Behavior in AC Railway System Based on Special Traction Transformers

M. Kalantari, M. J. Sadeghi, S. S. Fazel, S. Farshad.....618

Analysis of Thermal Behavior of High Frequency Transformers Using Finite Element Method

H. Babaie, H. F. Farahani.....627

New interfacial shear-horizontal waves in piezoelectric cubic crystals

A. A. Zakharenko.....633

A Simple Analytic Approximation for the Refracted Field at Gaussian Beam Incidence upon a Boundary of Absorbing Medium

V. M. Serdyuk, J. A. Titovitsky.....640

The figure on the front cover is from the article published in *Journal of Electromagnetic Analysis & Applications*, 2010, Vol. 2, No. 11, pp. 627-632, by Hossein Babaie and Hassan Feshki Farahani.
