Volume 4 Number 3

July 2018

Hypersphere World-Universe Model. Tribute to Classical Physics

V. S. Netchitailo.....441

Law of Universal Magnetism, $F = k_e \times H$

G. Poole.....471

How a Minimum Time Step and Formation of Initial Causal Structure in Space-Time May Void the Penrose Singularity Theorem, as in Hawkings and Ellis's 1973 Write-Ups

A. W. Beckwith.....485

Symmetries in Evolving Space-Time and Their Connection to High-Frequency Gravitational Wave Production

A. W. Beckwith.....492

New Exotic Models of Cold Nuclear Reactions and the Creation of the World

A. B. Simakov.....504

Calculation of the Fine-Structure Constant

J. Sánchez.....510

Calculating the Number of Universes in a Multiverse from First Principles with Linkage to Vacuum Energy and a Relationship with Nonlinear Early Universe B Fields. And the Early Universe B Field Connection to Non-Zero Graviton Mass

A. Beckwith.....519

Old Mechanics, Gravity, Electromagnetics and Relativity in One Theory: Part I

A. K. Abou Layla.....529

How a Minimum Time Step and Formation of Initial Causal Structure in Space-Time Is Linked to an Enormous Initial Cosmological Constant

A. W. Beckwith.....541

Using "Enhanced Quantization" to Bound the Cosmological Constant, and Computing Quantum Number n for Production of 100 Relic Mini Black Holes in a Spherical Region of Emergent Space-Time

A. W. Beckwith.....549

The Gravity Gauge Theory and Gravity Field Equation in Flat Space

X. Y. Wu, B. S. Wu, J. P. Liu, X. J. Liu, Y. M. Guo, Q. Pan, J. Ma, X. R. Zhang, H. Liu.....567
