Journal of Human Resource and Sustainability Studies (JHRSS) is an international journal dedicated to the latest advancements related to topics of human resource, work, and ecological sustainability. The aim of this journal is to provide an outlet for researchers interested to human resource, employment, and management issues.

Subject Coverage

All manuscripts must be prepared in English, and are peer-reviewed with double-blind process. The journal expects empirical, either quantitative or qualitative, or conceptual research, and publishes original papers focusing on the following but not limited topics:

- Corporate Social Responsibility
- Educational Environment
- Environmental Behavior
- Environmental Governance
- Environmental Health
- Environmental Management
- Environmental Psychology
- Ethics in Environmental Issues
- Greening Business
- Human Resources Management
- ISO 14001 Certification
- Sustainable Development
- Talent, Human Capital Development and Sustainability

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
