

## Special Issue on Intrusion Detection and Prevention

### Call for Papers

Intrusion detection is the process of gathering and analyzing information from various areas within a computer or a network to identify possible security breaches. Intrusion prevention is the process of performing intrusion detection and then stopping the detected incidents.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **rheological properties**. Potential topics include, but are not limited to:

- Network intrusion detection systems
- Host intrusion detection systems
- Detection method
- Intrusion prevention systems
- System configurations and vulnerabilities
- Analysis of abnormal activity patterns

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Intrusion Detection and Prevention**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	December 12th, 2017
Publication Date	January 2018
