TABLE OF CONTENTS

Volume 3 Number 4

December 2013

Wood Pyrolysis in Pre-Vacuum Chamber

H. Homma, H. Homma, Yusrizal, M. Idris.....243

Hydrothermal Pretreatment of Lignocellulosic Biomass and Kinetics

H. W. Lei, I. Cybulska, J. Julson.....250

Availability of Information about Sustainable Bioenergy Technologies: The Agro-Energy Tree of Knowledge

J. G. Jardine, E. Sundfeld, F. O. M. Durães.....260

Fluidized Bed Superheated Steam Dryer for Bagasse: Effects of Particle Size Distribution

L. S. Polanco, V. Kochergin, J. F. Alvarez.....265

Engine Performance and Exhaust Emissions of Peanut Oil Biodiesel

B. S. Santos, S. C. Capareda, J. A. Capunitan.....272

Theory of Global Sustainable Development Based on Microalgae in Bio and Industrial Cycles, Management-Changing Decisions in Areas of Climate Change and Waste Management

A. B. Avagyan.....287

Journal of Sustainable Bioenergy Systems

ISSN Print: 2165-400X ISSN Online: 2165-4018

<http://www.scirp.org/journal/jsbs>

Journal of Sustainable Bioenergy Systems (JSBS) is an international journal dedicated to the latest advancement of Sustainable Bioenergy Systems. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Sustainable Bioenergy Systems. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Genetic engineering for the development of energy crops
- Modern computational tools for the bioenergy production systems
- Novel breeding and cropping technologies for the production of energy crops
- Sustainable availability and supply logistics of organic residues
- Sustainable bioenergy processing technologies
- Sustainable biomass production and supply logistics of energy crops
- Sustainable biorefinery systems

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
