

## Special Issue on Intelligent Transportation Systems

### Call for Papers

**Intelligent transportation systems (ITS)** can play an important role in reducing risks and increasing traffic safety, which make human, vehicles, roads united and harmonic and establishes a wider range, fully efficient, real-time and accurate information manage system. However, ITS are not restricted to road transport, they also include the use of information and communication technologies for rail, water and air transport.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **intelligent transportation systems**. Potential topics include, but are not limited to:

- ITS technologies
- ITS design
- ITS evaluation
- ITS network
- Transportation construction
- Development of ITS
- ITS applications

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Intelligent Transportation Systems**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	December 22nd, 2015
Publication Date	February 2016
