

Special Issue on Ecological Economics Research

Call for Papers

Ecological Economics is both a transdisciplinary and interdisciplinary field of academic research that aims to explore the cutting edge methods and policy applications to address the global sustainability crisis problems. It involves in a wide range of disciplines that includes economics, ecology, physics, environmental sciences, sociology, psychology, etc..

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Ecological Economics Research**. Potential topics include, but are not limited to:

- Sustainable development strategies
- Allocation of resources
- Energy economics
- Energy accounting and balance
- Ecological-economic modeling
- Ecosystem services

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Ecological Economics Research**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	August 31st, 2016
Publication Date	October 2016
