

Special Issue on Economic Dynamics & Control

Call for Papers

This special Issue focuses on the theoretical and empirical aspects of economic dynamics and control as well as the development and use of computational methods in economics and finance, which may involve artificial intelligence, databases, decision support systems, genetic algorithms, modelling languages, neural networks, numerical algorithms for optimization, control and equilibria, parallel computing and qualitative reasoning.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Economic Dynamics & Control**. Potential topics include, but are not limited to:

- House price dynamics
- Monetary policy transmission
- Business cycle
- Statistical physics in economics and finance
- Dynamic stochastic general equilibrium modelling
- Macroeconomics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Economic Dynamics & Control**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 10th, 2017
Publication Date	April 2017
