

## Special Issue on Stock Market

### Call for Papers

A stock market, also called equity market or share market, is the market in which shares are issued and traded, either through exchanges or over-the-counter markets. It is one of the most vital areas of a market economy because it gives companies access to capital and investors a slice of ownership in a company with the potential to realize gains based on its future performance.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Stock Market**. Potential topics include, but are not limited to:

- Common stock
- Stock indexes
- Behavior of the stock market
- Stock market crash
- Stock market prediction
- Short selling and margin buying
- Virtual stock exchange

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Stock Market**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	March 31st, 2017
Publication Date	May 2017
