

## Special Issue on Energy Economics

### Call for Papers

Energy economics is a broad scientific subject area which explores the theoretical and empirical perspectives on individual and industrial demand for energy, energy supply, energy markets, and public policies affecting energy markets. It involves in the exploitation, conversion and use of energy, markets for energy commodities and derivatives, regulation and taxation, forecasting, environment and climate, international trade, development, and monetary policy.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Energy Economics**. Potential topics include, but are not limited to:

- Energy and economic growth
- Energy forecasting
- Energy infrastructure
- Energy policy
- Gas markets
- Oil-based commodity
- Electricity demand
- Renewable energy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Energy Economics**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 15th, 2018
Publication Date	April 2018
