

## Special Issue on Algae Research

### Call for Papers

**Algae** are photosynthetic organisms that occur in most habitats. They vary from small, single-celled forms to complex multicellular forms. Many of algae could play a significant role in meeting the world's food, water, energy, health care and material needs.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **algae research**. Potential topics include, but are not limited to:

- Algae biology
- Algae cultivation
- Algal products and economics
- Algal harvesting and extraction
- Algae energy
- Algae biotechnology
- Algal bloom
- Microalgae
- Applications

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Algae Research**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	February 23rd, 2016
Publication Date	April 2016
