

Special Issue on Avian Research

Call for Papers

Birds occur on land, sea and freshwater, and in virtually every habitats, from the lowest deserts to the highest mountains. Bird species is extensively distributed and advanced evolution on the earth, which is related very closely to human life. The goal of this Special Issue is to provide a platform for scientists worldwide to promote, share, and discuss various new issues and developments in the area of avian.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **avian research**. Potential topics include, but are not limited to:

- Avian ecology
- Behavior and habitat
- Community and migration ecology
- Avian evolution
- Avian breeding
- Avian species
- Avian conservation and protection
- Wild birds and environmental protection

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Avian Research**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	May 24th, 2016
Publication Date	July 2016
