

Special Issue on Mammalogy Research

Call for Papers

Mammals are worthy of study for many reasons. By studying various kinds of laboratory mammals, we gain practical knowledge about mammalian histology and about the effects of diseases and drugs. The goal of this Special Issue is to provide a platform for scientists worldwide to promote, share, and discuss various new issues and developments in the area of **mammalogy research**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **mammalogy research**. Potential topics include, but are not limited to:

- Mammalian diversity
- Mammalian structure and function
- Ecology
- Behavior and physiology
- Mammalian conservation and domestication
- Mammalian disease and zoonoses

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Mammalogy Research**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	December 29th, 2016
Publication Date	February 2017
