Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas of Open Journal of Air Pollution (OJAP) include but are not limited to the following fields:

- Atmospheric pollution
- Biodiversity as influenced by air pollution
- Biology and engineering related to air pollution
- Chemical, physical and biological processes of air pollution
- Ecological implications of pollution and pollution models
- Environmental biology
- Environmental modeling and bioremediation of polluted environments
- Environmental toxicology
- Global and climate change
- Molecular toxicology
- Novel environmental biotechnology as applied to air pollution
- Novel environmental engineering related to air pollution
- Novel methods used in the study of air pollutants
- Pollution sources, transport, deposition, accumulation, acid precipitation

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
