

Table of Contents

Volume 8 Number 1

March 2018

Impact of Ground Effect on Airplane Lateral Directional Stability during Take-Off and Landing

M. Sereez, N. Abramov, M. G. Goman.....1

Optimization of a Centrifugal Impeller with the Constraint on Efficiency at the Stall Point

K. B. Wang, X. Ai, R. Z. Zhang, J. Y. Li.....15

Large-Eddy Simulation and Wind Tunnel Experiment of Airflow over Bolund Hill

T. Uchida.....30

**Numerical Simulation of Two-Dimensional Natural Convection in a
Confined Environment with the Vorticity-Stream Function Formulation**

M. K. Kane, C. Mbow, M. L. Sow, J. Sarr.....44

Unsteady Behavior of Necklace Vortex Produced by a Square Plate Protrusion

K. Toda, T. Haraoka, T. Sadahiro, H. Yamada.....59

Magneto-Hydrodynamics Flow of Newtonian Fluid over a Suddenly Accelerated Flat Plate

M. A. Haque.....73

Drag Reduction and Secondary-Flow Occurrence by Square Biplane Grid

Y. Tachimoto, M. Iwamoto, H. Yamada.....78

On the Path from the Turbulent Vortex Dynamo Theory to Diagnosis of Tropical Cyclogenesis

G. Levina.....86

Numerical Study of the Injection of Carbon Dioxide in a Homogeneous Porous Media

L. U. R. Sica.....115
