

Special Issue on Forest and Sustainability

Call for Papers

Forests are critical for sustainable development. They provide a wealth of goods and services that are essential for people's lives, livelihoods and the green economy. Maintaining and enhancing our planet's forest resources is essential if we are to succeed in the global efforts to alleviate poverty, address water scarcity and biodiversity loss, and mitigate climate change. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of forest and sustainability.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **forest and sustainability**. In this special issue, potential topics include, but are not limited to:

- Forest sustainable management
- Sustainable forestry
- Productive functions and forest resources
- Protective functions of forest resources
- Forest protection
- Forest fire prevention

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Forest and Sustainability**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 9th, 2016
Publication Date	August 2016
