### Volume 3, Number 3, September 2013

<b>Characterization of randomly amplified polymorphic DNA (RAPD) fragments revealing clonal variability in cercariae of avian schistosome <i>Trichobilharzia szidati</i> (Trematoda: Schistosomatidae)</b>	
A. Korsunenko, G. Chrisanfova, A. Arifov, A. Ryskov, S. Semyenova.....	141
<b>Evolutionarily conserved features of the retained intron in alternative transcripts of the <i>nxf1</i> (nuclear export factor) genes in different organisms</b>	
L. A. Mamon, S. F. Kliver, E. V. Golubkova.....	159
<b>Variable <math>\beta</math>-globin haplotypes in Saudi <math>\beta</math> thalassemia population</b>	
J. Shinwari, T. Alshehri, A. I. Tahir, A. Al Jefri, A. AlMomen, D. Bakheet, M. AlAnazi, A. Warsy, N. Al Tassan.....	171
<b>Genetic analysis for geographic isolation comparison of brown bears living in the periphery of the Western Carpathians Mountains with bears living in other areas</b>	
J. Graban, J. Kisková, P. Pepich, R. Rigg.....	174
<b>Correctness and accuracy of template-based modeled single chain fragment variable (scFv) protein anti-breast cancer cell line (MCF-7)</b>	
E. O. Mahgoub, A. Bolad.....	183
<b>Novel intron 2 polymorphism in the melanophilin gene is in Hardy-Weinberg equilibrium and is not associated with coat color in goats</b>	
M. A. Adefenwa, B. O. Agaviezor, S. O. Peters, M. Wheto, O. J. Ekundayo, M. Okpeku, B. O. Oboh, K. O. Adekoya, C. O. N. Ikeobi, M. D. Donato, B. N. Thomas, I. G. Imumorin.....	195
<b>An update on the role of prokineticins in human reproduction-potential therapeutic implications</b>	
K. K. Kaur, G. Allahbadia, M. Singh.....	201
<b>Integration of expression profiles and endo-phenotypes in genetic association studies: A Bayesian approach to determine the path from gene to disease</b>	
S. M. Lutz, S. Sharma, J. E. Hokanson, S. Weiss, B. Raby, C. Lange.....	216
<b>First steps on technological and genetic improvement of European abalone (<i>Haliotis tuberculata</i>) based on investigations in full-sib families</b>	
V. Roussel, J. Charreyron, S. Labarre, A. Van Wormhoudt, S. Huchette.....	224
