

TABLE OF CONTENTS

Volume 3, Number 4, December 2013

Quantitative regulation of peripheral leukocyte by light exercise and tailored scale for assessment N. Yamaguchi, R. Chen, K. Okamoto, T. Takei, M. Tsubokawa, D. Sakamoto, X. F. Jia, W. H. Wan, T. Murayama.....	175
Maleylated-BSA induces TNF-α production through the ERK and NF-κB signaling pathways in murine RAW264.7 macrophages R. Tada, Y. Koide, M. Yamamuro, A. Hidaka, K. Nagao, Y. Negishi, Y. Aramaki.....	184
Natural killer cells responsiveness to physical exercise: A brief review A. Crisafulli, F. Tocco, F. Melis, R. Milia, A. Concu.....	190
Regulative effect for natural killer cell by hot spring hydrotherapy— Quantitative and qualitative discussion N. Yamaguchi, W. H. Wan, D. Sakamoto, A. Nurmuhhammad, K. Matsumoto, T. Takei, K. Okuzumi, T. Murayama, T. Takahashi.....	201
The prolactin-inducible-protein (PIP): A regulatory molecule in adaptive and innate immunity V. Umadat, O. Ihedioha, R. Shiu, J. Uzonna, Y. Myal.....	210
Seasonal modulation of the C-type lectin MGL on human DCs I. G. Zizzari, C. Napoletano, A. Rughetti, H. Rahimi, M. Nuti.....	218
Isolation of $\gamma\delta$T cells from mouse small intestine N. Snegireva, M. Gavrilova, E. Sidorova.....	221
Is it possible to block the cancer cells in circulating blood by extracorporeal circulation? Implications of the immune system and other factors (review) S. B. Ricci, F. Garbagnati.....	224

The figure on the front cover is from the article published in Open Journal of Immunology, 2013, Vol. 3, No. 4, pp. 201-209 by Nobuo Yamaguchi *et al.*
