

TABLE OF CONTENTS

Volume 3 Number 2

April 2013

Variation of Hyporheic Temperature Profiles in a Low Gradient Third-Order Agricultural Stream—A Statistical Approach

V. Beach, E. W. Peterson.....55

Implementing into GIS a Tool to Automate the Calculation of Physiographic Parameters of River Basins

R. Franco-Plata, C. Miranda-Vázquez, H. Solares-Hernández, L. R. Manzano-Solís, K. M. Bâ, J. L. Expósito-Castillo.....67

Calibration of Hydrognomon Model for Simulating the Hydrology of Urban Catchment

H. Garba, A. Ismail, F. O. P. Oriola.....75

Weather Radar Data and Distributed Hydrological Modelling: An Application for Mexico Valley

B. Méndez-Antonio, E. Caetano, G. Soto-Cortés, F. G. Rivera-Trejo, R. A. C. Rodríguez, C. Watts.....79

A View on Stochastic Finite Element and Geostatistics for Resource Parameters Estimation

S. Osmani, M. Kotro, E. Toromani, A. Bode, A. Boçari.....89

The figure on the front cover is from the article published in Open Journal of Modern Hydrology, 2013, Vol. 3, No. 2, pp. 67-74 by Roberto Franco-Plata, *et al.*
