

TABLE OF CONTENTS
Volume 2, Number 1, February 2012

Nitric oxide synthase mediates the apelin-induced improvement of myocardial postischemic metabolic and functional recovery

O. I. Pisarenko, Y. A. Pelogeykina, V. S. Shulzhenko, I. M. Studneva.....1

Determinants of airway hyperresponsiveness—Balance of tonic and phasic contractility of airway smooth muscles of lobular bronchioles

K. Min, K. Hosoi, Y. Kinoshita, S. Hara, H. Degami, T. Takada, T. Nakamura.....8

Use of fractal geometry to propose a new mechanism of airway-parenchymal interdependence

K. Min, K. Hosoi, Y. Kinoshita, S. Hara, H. Degami, T. Takada, T. Nakamura.....14

Thermo sensitive TRPM8 channel and its role in cold induced airway symptoms

J. Plevkova, Z. Biringeroova, S. Gavliakova.....21

Interaction between peroxisomes and mitochondria in fatty acid metabolism

F. Le Borgne, J. Demarquoy.....27

The figure on the front cover is from the article published in Open Journal of Molecular and Integrative Physiology, 2012, Vol. 2, No. 1, pp. 14-20 by Kyongyob Min *et al.*
