Special Issue on Nursing Process and Diagnosis

Call for Papers

The nursing process represents a systematic approach utilized by nurses to assess, diagnose, plan, implement, and evaluate the care provided to individuals. This comprehensive framework serves as a guide for nurses to identify and address the health needs of patients, promoting their recovery and overall well-being. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Nursing Process and Diagnosis**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Nursing Process and Diagnosis**. In this special issue, potential topics include, but are not limited to:

- Diagnostic Accuracy and Reliability
- Patient Assessment Techniques
- Diagnostic Reasoning and Decision-Making
- Evidence-Based Diagnosis
- Cultural and Ethnic Considerations in Diagnosis
- Patient-Centered Diagnostic Approaches

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue –*Nursing Process and Diagnosis***" should be selected during your submission.

Special Issue timetable:

Submission Deadline	July 30th, 2024
Publication Date	September 2024
