

Special Issue on Chronic Kidney Disease and Dialysis

Treatment

Call for Papers

Chronic kidney disease is a chronic kidney structure and dysfunction caused by various reasons. According to glomerular filtration rate (GFR), chronic kidney disease can be divided into 5 stages. The common treatment of chronic kidney disease is dialysis. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Chronic Kidney Disease and Dialysis Treatment**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Chronic Kidney Disease and Dialysis Treatment**. Potential topics include, but are not limited to:

- Chronic kidney disease and its complications
- Causes, diagnosis and treatment
- Renal replacement therapy
- Types of dialysis
- Nutrition in dialysis patients
- Food insecurity on chronic kidney disease
- Evaluation and management of chronic kidney disease
- Stage of chronic kidney disease
- Hypertensive chronic kidney disease
- Chronic nephritis
- Glomerular filtration rate (GFR)

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Chronic Kidney Disease and Dialysis Treatment**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 20th, 2020
Publication Date	December 2020
