

Special Issue on Arthroplasty

Call for Papers

Arthroplasty is an orthopedic surgical procedure where the articular surface of a musculoskeletal joint is replaced, remodeled, or realigned by osteotomy or some other procedure. It is an elective procedure that is done to relieve pain and restore function to the joint after damage by arthritis or some other type of trauma.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Arthroplasty**. Potential topics include, but are not limited to:

- Surgical therapies for osteoarthritis
- Hip and knee arthroplasty
- Osteotomy for hip dysplasia
- Replacement therapy on arthritis
- Joint prosthesis
- Total knee replacement
- Hemiarthroplasty
- Joint dislocation
- Complications after surgery
- Prosthetic joint infections

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Arthroplasty**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 21st, 2018
Publication Date	October 2018
