

Special Issue on Orthopedics and Orthopedic Surgery

Call for Papers

Orthopedics is a medical field involving the surgical treatment of diseases of the musculoskeletal system. This system is made up of muscles and bones, as well as joints, ligaments and tendons. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Orthopedics and Orthopedic Surgery**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Orthopedics and Orthopedic Surgery**. Potential topics include, but are not limited to:

- Spine Surgery
- Sports and arthroscopic surgery
- Upper limb surgeries
- Musculoskeletal oncology
- Paediatric orthopaedics
- Rehabilitation
- Traumatology
- Orthopedic surgery and techniques
- Complications

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Orthopedics and Orthopedic Surgery**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	July 9th, 2021
Publication Date	September 2021
